KEYSTONE NURSERIES

LANCASTER, PA.

We Prepay Shipping Charges on all Orders for \$10.00 or over, to all points within 200 miles, thereby quoting prices at your door.

By Way of Introduction

In issuing this catalogue, we resolved to make Barr Quality Trees and Plants mean more than a mere name for selling plants, with this end in view we gave both the botanical and common names together with the sizes of trees offered, we can supply, and a brief, accurate description of many of them.

Not only will you find it helpful in this respect, but the prices which have been named are extremely low, when quality is kept in mind.

We guarantee our products to be true to name. The best grown and the biggest value for the money to be had anywhere. Selling as we do direct to planter no agent or middlemens profits to be divided.

We also guarantee delivery of goods in a satisfactory condition or stock replaced. Every plant must be as represented, whether it be a 10 cent Geranium or a \$10.00 Evergreen.

We prepay shipping charges on all orders for \$10.00 or over to all points within 200 miles, thereby quoting prices at your door.

Keystone Nurseries have a reputation far and near for its excellant products. One of the principle contributory reasons is that we have here in Lancaster County a soil especially adapted for the growing of plants, and another, that the quality of our product and upon the policy of a "square deal" our modest little greenhouses and nursery; established 18 years ago, have increased to such proportions making it necessary to add land to the extent of 110 acres and 16 Greenhouses or 65,000 feet of glass, and we aim to maintain that standard of excellence.

While we do not agree to replace stock should it fail to grow, we will when explanation is given allow reasonable concession to any one that may have suffered an undue proportion of loss with our products.

We solicit your order, large or small, knowing our stock to be among the best produced.

Evergreen Trees

Evergreens are one of our leading specialties. The soil in our Nurseries are splendidly suited to their growth. Making possible the production of the best root systems, which minimizes the likelihood of loss from transplanting.

The groupings of flowers and shrubbery, or the location of trees, must be placed so that they will produce a harmonious whole that makes the lawn abound in interest and beauty. At the same time, they must fulfill their mission of giving shade or hiding from view some unsightly object, framing some vista with foliage, making a display of flowers, and enhancing the beauty of the place to the owner's satisfaction.

Consult us about planting plans that will help you to get such results. We solicit correspondence with all who contemplate improving and beautifying their grounds, whether it be on the lawn of the modest home or on the larger estates.

Evergreen Shrubs and Trees

This class of plants includes Hollies, Euonymus, Rhododendrons, Yuccas, Laurel and Azalea Amoena. All of which are very desirable for planting in connection with other Shrubs, Borders, etc. Figures in parenthesis indicate the height of the trees when at from 25 to 30 years of age.

	Each	Per 10

Azalea Amoena. (3 to 4 feet.)

12 to 15 inch pot grown..... .75
1 to 1½ feet, Bushy..... 1.00

The difference between landscape and landscape is small, but there is a great difference in beholders.

There is nothing so wonderful in any landscape as the necessity as being beautiful under which every landscape lies.

Emerson "Nature."

Deciduous Ornamental Trees

Our collection includes trees adapted for all soils and locations. All have been grown with care, to make them stocky, well headed and supplied with fibrous roots. Figures in parenthesis indicate the height of the tree when at from 25 to 30 years of age.

	Each	Per 10
Acer Dasycarpum. Silver Maple. (60 to 75 feet.)

4 to 5 feet stem 2 year heads.....	1.50	

Deciduous Shrubs

Whether planted individually or collectively the shrub is an important feature in the adornment of all grounds.

They are different than most shrubs—have had a different life, more room, more care, more cultivation, etc.

Liberal reductions offered on quantities. Size following name in parenthesis represents approximate height at maturity.

	Each	Per 10

3 to 4 "50	4.00

Hybrid Tea Roses

Very productive. Hardy with little protection, brilliant colors and delightful fragrance. We recommend covering the base of the plant with 6 to 8 inches soil or ashes in the late fall, to be removed in the spring. A heavy covering of manure is also necessary for protection and fertilizing.

AMERICAN BEAUTY (H. T.) The largest, sweetest of all hardy roses. Color rich crimson, ever blooming rose.

ARCH DUKE CHARLES (H. T.) Opens red changing to silvery pink. Large.

BESSIE BROWN (H. T.) Very large, creamy white, free bloomer, fine sort.

BURBANK (H. T.) Color, cherry-rose, great bloomer.

CAROLINE TESTOUT (H. T.) Satiny pink. Large flower.

CLOTHILDE SOUPERT (H. T.) Double rosy blush in the center,, large clusters.

DEAN HOLE (H. T.) Large flowers, silvery carmine shaded salmon.

ETOILE DE FRANCE (H. T.) Large, cupped formed variety, crimson.

ETOILE DE LYON (H. T.) Best pure yellow rose. Bright golden yellow.

FRANCISCA KRUGER (H. T.) Coppery yellow shaded with peach, large and full.

GRUSS AN TEPLITZ (H. T.) Medium size, scarlet crimson. Sweetly scented, strong grower.

HELEN GOULD (H. T.) Rosy-crimson, large fine bedder. Blooms constantly.

HERMOSA (H. T.) Medium size, pale pink, distinct. Great bloomer.

KAISERINE AUG. VICTORIA (H. T.) Cream shaded lemon, full and sweet.

KILLARNEY (H. T.) Blooms freely, produces large flowers of the most exquisite shade of rich pink. Very fragrant.

LA FRANCE (H. T.) Very large, silvery pink. Abundant bloomer.

MRS. B. R. CANT (H. T.) Bright rosy pink, large size, double and full.

MRS. DE GRAW (H. T.) Rich glossy pink, flowers born in clusters.

MARIE VAN HOUTTE (H. T.) Large, pale yellow, center petals tipped bright rose. Fine variety.

MME. JULES GROLEZ (H. T.) Handsome buds and large, full, finely formed

MY MARYLAND (H. T.) Very free bloomer, flowers medium size and full. Color bright salmon pink with paler edges, very fragrant.

PERLE DES JARDINS (H. T.) Very large, full superb golden yellow shaded carmine.

PINK COCHET (H. T.) Pink, good bloomer. Fine for cutting.

RHEA REID (H. T.) Rich red, very double, fine formed and a constant bloomer.

SAFRANO (H. T.) Medium size, coppery orange, fragrant, single flower.

SOUV. PIERRE DE NOTTING (H. T.) Buds long and pointed. Flowers very large, perfectly full and double. Color rich orange yellow, dashed and bordered with carmine rose.

WHITE COCHET (H. T.) White, good bloomer, fine for cutting.

	Each	Per 10
Spring planting strong 2 yr. plants from pots	\$40	\$3.50
Spring planting strong 1 yr. plants from pots	.25	2.00
Fall planting strong 2 yr. plants from field	.30	2.50

Hybrid Perpetual Roses

Hybrid Perpetual Roses are especially valuable for planting in exposed places, and where a large growth is desired. They are perfectly hardy and will stand our most severe winters without protection. Many of them bloom more or less through the summer. We list the very best collection by test. All roses delight in a rich soil.

BABY RAMBLER (H. P.) Ever-blooming dwarf crimson Rambler. Does not exceed 24 inches in height.

FRAU KARL DRUSCHKI (H. P.) Pure snow white, large and double. Extra fine.

GEN. JACK (H. P.) Large, full, brilliant crimson scarlet. Excellent.

GLORY LYONAISE (H.P.) Large, full, white, base of petals canary.

MAGNA CHARTA (H. P.) Clear rosy-red, beautiful rose. Constant bloomer.

MRS. JOHN LAING (H. P.) Beautiful soft pink, one of the best.

MRS. R. G. CRAWFORD (H. P.) Color, deep rosy-pink, petals tinted pale flesh. Flowers large and fragrant.

PAUL NEYRON (H. P.) Enormous size, full, color deep rose, distinct.

PRINCE CAMILLE DE ROHAN (H. P.) Very dark, velvety crimson, almost black; darkest of all.

ULRICH BRUNNER (H. P.) Bright cerise red, a magnificent rose.

Each Per 10

Spring planting strong 2 yr. plants from pots	\$50	\$4.00
Spring planting strong 1 yr. plants from pots	25	2.00
Fall planting strong 2 yr. plants from field	.30	2.50

Hardy Climbing Roses

This collection requires no protection. They may be used for Arbors, Porches, Screens or any place where they have space to climb. They may also be planted in connection with Clementis, Panaculata, producing a grand combination.

PHILAD'A. RAMBLER—Vivid crimson with large trusses of long lasting flowers. Improved crimson Rambler.

DOROTHY PERKINS—Soft shell pink flowers in large clusters.

FRIER—White Rambler.

GLORIE DE DIJON—Salmon yellow, monthly bloomer.

HIAWATHA—Single red shaded to white.

LADY GAY—Delicate pink fading to white, good size and perfumed.

TAUSENDSCHON—Opening flowers pink, the most valuable climber.

Each Per 10

Spring planting strong 2 yr. plants from pots	\$40	\$3.50
Spring planting strong 1 yr. plants from pots	.25	2.00

New and Rare Roses

While these new Roses are rather expensive, you should have at least one of them in your collection. If no other, try the Violet Blue, which is the first of the color ever introduced.

OTTO VON BISMARCK (H. T.) Growth vigorous, of free branching habit, flowering freely and continuously. Color silvery pink.

FLOWER OF FAIRFIELD (H. C.) Climbing rose. Resembles the Crimson Rambler, except that it continues to bloom all summer. It produces a marvelous succession of brilliant crimson clusters from early Spring till late in Autumn.

VIOLET BLUE (H. C.) Climbing rose. Bears semi-double flowers of medium size, in large bunches. Color reddish or rosy lilac when opening changing to metallic blue.

LYON ROSE (H. T.) Crab-red, center coral red with salmon and chrome yellow shading. Flower very large.

Spring planting strong 2 yr. plants from pots. Each \$1.50
Violet Blue. Spring or Fall strong 1 year plants,.....\$.50

ROSA RUGOSA

For hedges or groups in connection with Shrubbery. Large, single flower, following later with red seed pods.

	Each	Per 10
2 year plants 2 to 2½ feet.....	\$.50	\$4.00

Hardy Perennials

Our Big Five Specialties will produce a continuous bloom all summer. German Iris, Paeonies, Hardy Phlox, Japan Iris, Hardy Chrysanthemums.

These plants alone will produce a grand and pleasing effect and they require very little care, except that they delight in a rich soil as they are gross feeders. They should be watered in dry seasons.

CHRYSANTHEMUMS HARDY

The varieties we list are selected from 50 sorts, planted for trial last season. Poor ones have been discarded. Strong potted young plants ready May 1st.

ALLENTOWN, Yellow.

BOSTON, Yellow.

BOHEMIA, Pure yellow.

BRADSHAW, Silvery pink. Very large.

EAGLE DE ORR, Cremo yellow.

GRACIE, Large white.

JULES LEGRAVERE, Maroon. Extra fine.

LITTLE PET, Violet.

LOVELY, Large.

REV. W. M. HOFFMAN, Bronze. Fine.

SYLVIA, Scarlet or Bronze.

YELLOW GEM, Pure yellow. Extra fine.

Good strong plants, 15 cents each; 10 of one kind, \$1.20; 100 of one kind, \$10.00; 5 at 10 rate—50 at 100 rate.

GERMAN IRIS

Iris Germanica or (Fleur-de-Lis.)

GERMAN IRIS

Sometimes known as "Flags." They thrive in almost any soil, but delight in full sun. Our collection embraces all the large and rare sorts. Plant a bed of them and enjoy the results.

ALBION, White.

ARISE SCHEFFER, Lilac purple.

ASIATICA, Pale blue standards with purple-blue falls.

AZUREUM, Blue.

BRIDESMAID, White spotted with pale blue.

CANARY BIRD, Standards bright yellow, falls deeper yellow with orange beard.

DELICATE, Standards pale lavender, falls white delicately traced and tipped lavender.

DARIUS, Standards rich canary yellow, falls lilac margined white. Rich orange beard, one of the most distinct.

DR. BERNICE, Coppery bronze, velvety standards and falls velvety crimson.

DONNA MARIA, White tinged lilac.

FLORENCE, Lilac.

FLORENTINA, Creamy white, faintly flushed lavender, fragrant and very early.

GERMANICA ALBA, Pure white.

GRACCHUS, Crimson reticulated white.

HONORABLE, Standards golden, falls rich mahogany brown. Very effective.

KOCHI, Blue and Violet.

LORD GREY, Clouded rose fawn.

LONGFELLOW, Porcelain blue, with white petals.

MADAM CHEREAU, White, frilled with a wide border of clear blue.

L'INNOCENCE, Pure white. Fine.

PENELOPE, White, delicately veined reddish violet.

PAULINE, Light blue and dark purple.

PRINCESS MATHILDA, White and rose.

PLUMERI, Deep coppery red, early and free flowering.

PURPLE KING, Full purple, very effective.

RACIMA, Light blue.

REMBRANDT, Soft lilac-blue.

RUBENS, Dark blue.

THELLO, Dark purple.

WHITE QUEEN, White.

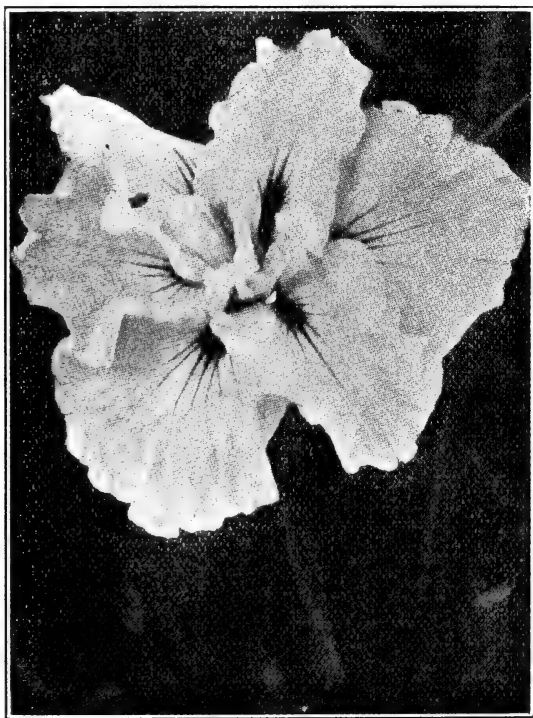

YELLOW KING, Yellow.

Good strong plants, 15 cents each; 10 of one kind \$1.20; 100 of one kind, \$10.00. 5 at 10 rate; 50 at 100 rate.

JAPAN IRIS

Iris Kaempferi.. Japanese Iris.

The flowers embrace tints of blue, red, yellow and white. Larger in flower than the German, and as they begin bloom-

JAPAN IRIS

ing just as the German are through, they may be planted side by side to insure a long period of bloom. Supply them with plenty of water in dry seasons.

ADELAINE, Red, lilac center.

BANDA-NO-NAMI, White, fringed center.

DANDY, Dark lilac spotted light blue.

EXELSIS, Velvety, reddish purple.

FAIKOON, Lilac.

FOYSKOMU, Blue stripped.

GEKKA-NO-NAMI, Very tall, early white, three petals.

GLORY OF ROTTERDAM, Double, pure white, extra.

HANAGUNAM, Light violet blue.

HANA-NO-NISHIKI, White ground, very mottled, violet blue. Six petals.

- NOKUSII**, Dark blue.
KAZA RIBI, Lilac.
KOMURA, Yellow and purple.
KUMA-TANJIN, Center of petals silvery white with a broad border of magneta lilac.
KUMO-NO-UYE, Delicate blue, suffused white center, petals white stripped blue.
KUMA-FUNJIN, Center of petals silvery white with a broad border of lilac.
LAMPLIGHTER, Light blue.
LIKING CHARG, Yellow and white.
LILACEUS, White and blue.
LUCRETIA, White spotted rose.
MARK TWAIN, Light lilac.
MICAEL, Purple red.
NASHIVA, White and light purple.
NIPPON, White.
NICHY, Light lilac.
ONIGO-SHIMO, Six large petals deep blue with a white halo, radiating into white bars.
OSHO-KUN, Intense tyrian blue, yellow blotches radiating into white. Late.
OTHELLO, Dark brown.
OYODO, Dark, black, purple or indigo, three very large falls with a brilliant gold blotch, extra.
PARAMARIBO, Dark blue.
PRESIDENT GRANT, Soft lilac spotted dark.
PRINCESS LOUISE, Light blue, veined lilac.
PRINCE OCHO, White and blue.
QUEEN OF THE EAST, Light lilac, large flowers.
SNOW QUEEN, Double pure white, extra.
SNOWBALL, Pure white.
SADO, White, but small grower.
SHISHI-ODORI, Deep velvety purple shaded blue, six petals
SHIGO-NO-URANAMI, Dark blue, with white lines, six petals.
SINJO-NO-HORA, Vinous purple, speckled and splashed grey six petals.
SHISHI-IKARE, Very late dark royal purple, six large fluted falls.
SOFU-NO-KOI, Six petals, claret purple, white center.
SUPERBISSIMA, Double white.
SUZAME YUHATO, Double white and blue.
SUNNO HIGAHAN, White and purple.
VELVET QUEEN, Dark violet.
YEDDO-JIMAN, Very dark royal blue brilliant yellow spots with a faint white halo, three immense falls, dark purple standards.
YEDDO, Purple.
YOSKOMII, Blue stripped.

Good strong plants, 20 cents each; 10 of one kind \$1.50; 100 of one kind, \$12.00. 5 at 10 rate; 50 at 100 rate.

Paeonies

Without doubt Paeonies are at the present time the most popular of all Hardy Perennials, and justly so, for probably there is no other class of plants that combine so many desirable qualities with so few objectional ones. They delight in a well drained rich soil. Fall planting is recommend-

BARR PAEONIES

ed, August or September. They are also successfully planted in the Spring if done early. We offer only choice and the rarest varieties. The name and date in parenthesis indicates when the variety was introduced and by whom.

ACHILLEA, (CAL. 1855.) Light, flesh-colored pink, changing to blush white, fine large blooms, profuse bloomer, strong grower, early.

	Each	Per 10
One year.....	\$.50	\$ 4.00

One year	\$.50	\$4.00
Two "75	6.00

Mixed varieties, separate colors. 2 year 30 cents; per 10 \$2.50; per 100 \$18.00. 5 plants of one kind at 10 rate.

Perennial or Hardy Phlox

Our superb collection embracing the choicest late introductions, Phloxes are next to the Paeonies and Iris the most useful hardy plants we have. They too have a variety of color, embracing every shade except yellow. They delight in a rich loam, and do not object to partial shade.

AURORA BOREALE (Dwarf) Flowers large, in dense panicles, orange with purple center of great effect.

BERANGER (Dwarf.) White suffused with pink, rosy lilac eye.

B. COMPE (Tall.) Intense rich, glowing crimson.

BLANC DE NAIN (Tall.) Pure white, extra large truss and flowers.

BRIDES MAID (Medium.) Pure white, crimson eye, extra large flower.

CARAN D'ACHE (Dwarf.) Geranium red, with old rose shadings and white eye.

COQUELICOT (Medium.) A fine and bright standard red tinted orange.

CLAMPS ELLYSEE (Dwarf.) Fine rich purplish crimson.

ECLAIREUE (Medium.) Carmine flowers; center rosy salmon large flowers and truss, good grower and great bloomer.

EUGENE DANZENVILLIER (Dwarf.) Lilac with white edges and center. Fine for border.

FAUST (Dwarf.) White with pink eye.

F. G. VON LASSBURG (Medium.) The purest white in cultivation, individual flowers larger than any other white.

GEORGE A. STROHLEIN (Medium.) Bright scarlet with crimson-red eye.

HENRY MURGER (Tall.) Beautiful variety; white crimson carmine center.

HERMINE (Dwarf.) Never exceeding ten inches in height, pure white flowers of good size, early, unequalled for bordering.

INDEPENDENCE (Tall.) An extra fine large flowering, early white variety.

J. H. SLOCUM (Medium.) Rose pink with crimson eye, one of the best.

LA VOGUE (Dwarf.) Beautiful soft pink.

L'EVENEMENT (Dwarf.) Bright soft pink, tinted salmon, bluish purple center, very showy.

LOTHAIR (Tall.) An unusually attractive and brilliant variety of rich salmon pink; fine spike.

MATADOR (Medium.) Bright orange scarlet, cherry red eye.

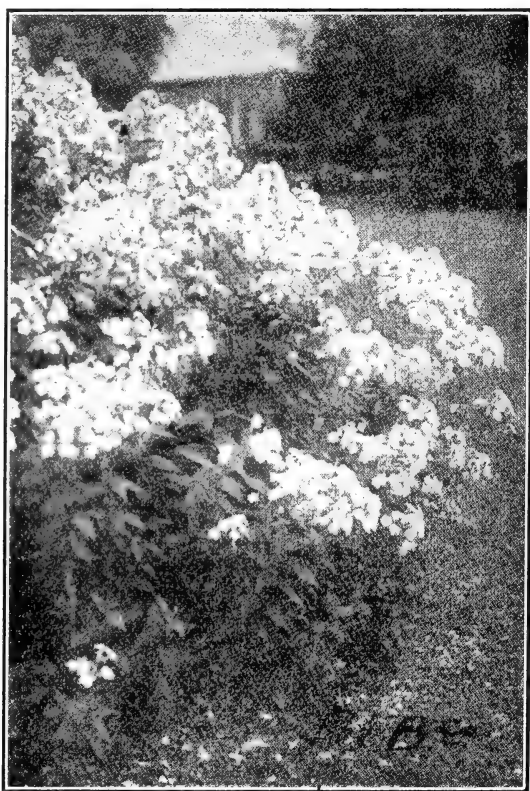

MAD. P. LANGIER (Tall.) Bright geranium-red, vermillion center; fine spike, handsome variety.

MRS. JENKINS (Tall.) The best tall early white for massing.

PACHA (Dwarf.) Deep rose pink, suffused with solferino-red and carmine.

PANTHEON (Medium.) The most distinct pink in cultivation. Flowers large.

PROF. SCHEILMAN (Tall.) A soft salmon rose, carmine eye; a strong grower and profuse bloomer.

PERENNIAL PHLOX

Queen (Tall.) One of the best pure white sorts, a fine grower.

RICHARD WALLACE (Tall.) A very fine grower; profuse bloomer, large flowers in immense panicles, pure white with crimson center.

R. T. STRUTHERS, Brilliant pink, crimson eye. One of the best.

VESUVIOUS (Medium.) Pure red with bright purple eye. A dazzling color.

VON HOCHBERG (Medium.) Clear crimson, richest of its color. Good strong plants, 15 cents each; 10 of one kind, \$1.20;

100 of one kind, \$10.00. 5 at 10 rate; 50 at 100 rate.

Hardy Perennials--Continued

It is no wonder these grand, old fashioned hardy flowers continue to increase in popularity because there is not a time during the whole summer in which some hardy perennial is not in bloom. We list only such varieties that we have tried and have given satisfaction.

	Height	Color	Time of Bloom
ACONITUM NAPELLUS (Monkshood.) 20c.	3 ft.	Blue	June
ACHILLEA, "The Pearl."	1½ ft.	White	All Summer
ACHILLEA M. RUBRA	1 to 1½ ft.	Rosy Crimson	June to Sept.

Hardy Climbing Vines

Here is an excellent collection of vines suitable for all purposes. Most of which are pot grown.

Our customers find the "potted" plants worth twice as much as disturbed roots from the field, as transplanting does not check their growth, and they are sure to grow even though they are planted in full leaf.

IVIES

	Each	Per 10

	Each	Per 10
Strong Clumps	\$30	\$2.50

Fruits

Don't let the San Jose scale scare you out of having the good things your land can easily produce. Don't deceive yourself and think you can buy them and have just as good fruit as if you grew them yourself.

While fruit growing is not only profitable, the pleasures derived from growing fruits are far greater than the care they require to keep the trees in good condition. With the prepared lime-sulphur solution and the numerous, inexpensive spraying outfits now on the market, anyone can spray his trees without much trouble or expense, which is of course necessary to produce good fruit.

Distances to Plant Trees and Plants

PLANTING. Cut off broken roots, dig a hole deep enough to let the tree stand one or two inches deeper than it originally stood in the nursery. Spread the roots out and pack the soil firmly around them.

TREES IN QUANTITIES. Those intending to plant large orchards are invited to correspond with us early in the season, before October for fall planting, and before March for spring planting, when lowest rates for trees of various quantities will be quoted.

Apples	30 by 30 ft.	48 Trees per acre
Pears, Standard, and Cherries	25 by 25 "	70 Trees per acre
Pears, Dwarf	12 by 12 "	300 Trees per acre
Peaches, Plums, Apricots ...	18 by 18 "	135 Trees per acre
Grapes	10 by 16 "	275 Vines per acre
Asparagus	2 by 5 "	4250 Plants per acre
Currants and Gooseberries	2 by 4 "	5450 Bushes per acre
Raspberries and Blackberries	3 by 6 ft.	2420 Plants per acre
Strawberries	1 by 3 "	14500 Plants per acre

The above table is calculated for commercial planted, they may be planted at least 10 per cent. closer where space is limited.

EARLY APPLES.

EARLY HARVEST—Medium size, skin pale yellow; flesh white, tender, juicy, subacid. Very prolific.

RED ASTRACHAN—Very early; crimson, streaked with yellow; juicy.

YELLOW TRANSPARENT—Pale yellow when ripe; flesh tender, juicy and good.
